

ECONOMIC DEVELOPMENT INCENTIVES

The City of Alma offers numerous incentives for qualified development projects, often in conjunction with county and state programs. See below for available programs and their eligibility criteria. If you are interested in the below programs, please contact City Manager Aeric Ripley (aripley@myalma.org) to discuss your project in more detail.

CONCEPTUAL PROJECT REVIEW

The City of Alma is committed to the success of your redevelopment project. As a result, please contact the City as soon as possible to review your project details. The City will then be able to guide you through the development process to ensure you meet the criteria and timelines for potential incentives. The City can also help in coordinating County and State resources as needed. Please contact Aeric at aripley@myalma.org or (989) 463-8336.

BROWNFIELD REDEVELOPMENT TAX INCREMENT FINANCING (LOCAL ONLY, OR WITH STATE OPTION)

Brownfield Redevelopment can be applied to sites that are deemed functionally obsolete, blighted, or environmentally-contaminated. Tax Increment Financing (TIF) allows a developer to capture increases in property tax revenues on an eligible property to pay or assist in paying costs of eligible activities through a reimbursement plan approved for the project. For more information, [click here](#).

In Gratiot County, the City of Alma works with Greater Gratiot Development to administer the local Brownfield program. If approved at a local level, the above-described TIF will capture available property tax revenues from "non-school" taxing jurisdictions, including municipal and county millages. The Brownfield program can be stacked with other incentives, including CRA & OPRA (see below).

To begin the process of applying for a Brownfield, please contact jim.wheeler@gratiot.org with the following information: Developer Name, Project Address, Status of Building, and Project Description. For approval, the developer will complete a Brownfield plan, often with assistance from an environmental firm, which will be approved by the Brownfield Redevelopment Authority of Gratiot County, the City of Alma, and Gratiot County.

Some projects may qualify for additional tax capture, which would include "school" taxing jurisdictions. Such approval would come from the State of Michigan (MEDC/EGLE), and GGD I would be able to assist with that designation as well.

COMMERCIAL REDEVELOPMENT EXEMPTION

The Commercial Redevelopment Act (PA 255 of 1978 as amended) affords a tax incentive for the redevelopment of commercial property for the primary purpose and use of a commercial business enterprise. The property must be located within an established Commercial Redevelopment District. Exemptions are approved for up to 12 years as determined by the local unit of government and the taxable value is frozen for the duration of the certificate. For more information or to apply, [click here](#).

COMMERCIAL REHABILITATION EXEMPTION

The Commercial Rehabilitation Act, PA 210 of 2005, as amended, affords a tax incentive for the rehabilitation of commercial property for the primary purpose and use of a commercial business or multi-family residential facility. The property must be located within an established Commercial Rehabilitation District. Exemptions are approved for up to 10 years, as determined by the local unit of government. The property taxes are based upon the previous year's (prior to rehabilitation) taxable value. The taxable value is frozen for the duration of the certificate. For more information or to apply, [click here](#).

ECONOMIC DEVELOPMENT INCENTIVES (cont.)

OBSELETE PROPERTY REHABILITATION ACT (OPRA)

The OPRA (P.A. 146) incentive essentially allows property owners that are proposing a building renovation to "freeze" a portion of their real property taxes on the current property's value for a period of up to 12 years. Only commercial property or commercial housing property is eligible and the project must be located in a qualified local governmental unit (Alma, Ithaca, and St. Louis are eligible). The process to secure this incentive includes two public hearings and two council resolutions. In order for a project to be eligible, this incentive must be secured prior to building renovation. [Click here for more information or to apply.](#)

MICHIGAN COMMUNITY REVITALIZATION PROGRAM (MCRP)

The Michigan Community Revitalization Program (MCRP) is an incentive program to promote private investment in Michigan communities. Administered by the Michigan Economic Development Corporation (MEDC) on behalf of the Michigan Strategic Fund (MSF), the MCRP promotes community revitalization through the provision of grants, loans, or other economic assistance for eligible projects located on properties that are either contaminated (facility), blighted, functionally obsolete, or historic resources. For more information, [click here.](#)

INDUSTRIAL FACILITIES TAX ABATEMENTS (PA 198)

Industrial property tax abatements provide incentives for eligible businesses to make new investments in Michigan. These abatements encourage Michigan manufacturers to build new plants, expand existing plants, renovate aging plants, or add new machinery and equipment. High technology operations are also eligible for the abatement. The abatement amounts to a reduction in property taxes of approximately 50%. [Click here for more information or to apply.](#)

OPPORTUNITY ZONE

The program is designed to incentivize patient capital investments in low-income communities nationwide that have been cut off from capital and experienced a lack of business growth. There are three types of tax incentives that relate to the treatment of capital gains, each of the incentives are connected to the longevity of an investor's stake in a qualified Opportunity Fund that provides the most upside to those who hold their investment for 10 years or more. Alma has one Opportunity Zone. For more information, [click here.](#)
